

The TearCare® system is indicated for the application of localized heat when the current medical community recommends the application of a warm compress to the eyelids. Such applications would include Meibomian Gland Dysfunction (MGD), Dry Eye, or Blepharitis.¹

| Commonly used ICD -10 -CM Codes Meibomian Gland Dysfunction (MGD) | Right Eye | Left Eye | Bilateral |
|--|-----------|----------|-----------|
| Upper lid | H02.881 | H02.884 | N/A |
| Lower lid | H02.882 | H02.885 | N/A |
| Under /Upper/and lower lid | H02.88A | H02.88B | N/A |

The ICD-10-CM codes listed above are commonly associated with patients with Meibomian Gland Disease. This is not an inclusive list of all diagnosis codes nor does it imply that coverage is available for these codes. It is the provider's responsibility to report the ICD-10-CM diagnosis code that most accurately describes the patient's condition.

| CPT ² | Code Description | Medicare National Avg Payment Rate ³ | Total RVUs | Global Period ⁴ |
|------------------|--|---|------------|----------------------------|
| 0563T | Evacuation of meibomian glands, using heat delivered through wearable, open-eye eyelid treatment devices and manual gland expression, bilateral (For evacuation of meibomian gland using manual gland expression only, use the appropriate evaluation and management code) | Carrier Priced | N/A | YYY |

SIGHT SCIENCES REIMBURSEMENT SUPPORT LINE

- Reimbursement professionals are available to help answer coverage, coding and payment questions and provide reimbursement support for the TearCare® system (e.g., pre-auth requests, claims assistance, appeals), Monday through Friday, 8am – 5pm CST.
- Support line personnel can be reached at 844.339.8070 or Reimbursement@SightSciences.com. Support services are provided in order to assist with patient access to medical technology.
